SECOND ANNUAL STREET FAIR, SAT. & SUN. AUGUST 21 & 22

The Bernal Heights Street Fair will be held August 21 and 22 from 9 a. m. until 5:30 p. m. Our cover is a montage of last years Fair activity. Because of the excellent reception and continued interest, the Bernal Heights Association extended the time this year to two days. Also there will be a larger variety of exhibits and many move activities for children. Join us at the Fair for fun and entertainment while helping us work for a better neighborhood in the future..

## MONTMARTE IN THE MISSION

Once upon a time, when the "San Francisco Art Institute" was still the beloved "California School of Fine Arts", most of San Francisco's artists lived close to it, in North Beach. But as more and more tourist buses, top-less honky-tonks and high-priced apartment houses invaded Telegraph Hill, the serious artists fled. Many of them found shelter on old Nannygoat Hill (Bernal Heights), where irregular streets, spectacular views and the melody of Latin dialogue seemed sweetly familiar.

Bernal Heights has appealed to artists from the beginning. Around 1860, the great Samuel Marsden Brooks discovered the Hill and built an enchanting Victorian homestead at 34 Prospect Avenue. Brooks, in his day a painter of great fame, was a co-founder of the Bohemian Club and the now San Francisco Art Institute. He left behind a vast body of work,

among it Mrs. Mark Hopkins' famous "Peacock", which gave its name to the Peacock Court in the Hotel Mark Hopkins. The Brooks homestead is the "Haunted House of Bernal Heights", and thereby hangs a story.

The painter's family included a pair of beautiful daughters who often entertained family and friends by performing barefooted Grecian dances, of the kind which later were made famous by Isadora Duncan. Once, the girls planned to amaze their audience by dancing on the roof, in the light of the full moon. The act was well rehearsed, but the young dancers had not counted on the heavy fog which had left the shingles wet and slippery. The younger sister lost her footing and fell to her death. Ever since, a transparent white wraith is said to dance on the roof at the time of the full moon.

The house at 34 Prospect Avenue is listed as a historical site by the California Historical Society and the Junior League. It is lovingly preserved by its present owner, the noted sculptor, C. B. Johnson.

Today, many artists make their home on the Hill. On the same block as the Brooks house, Greta Van Praag, a painter known for jewel-like mosaics and collages resides. John Frye, painter of contrasts, combines Victorian whimsy and haunting somberness in his beautiful studio - home on Aztec Street. Robert Harvey, winner of countless awards, lives on the top of Folsom Street. The nearly blind sculptor Wanda Anderson's home is on the other side of the Hill. There are many, many others, no less deserving of note - painters, sculptors, graphic artists, puppeteers and folk singers, writers and photographers.

Ethnic folk art from every

corner of the world adds to the sparkle of the Hill. A house on the crest of the Hill sports primitive wood carvings reminiscent of Micronesia. Where else in San Francisco are there homes painted in the riotous, confident colors of European peasant art - orange, shocking pink, royal blue? We see Serapes from Oaxaca, sequined blouses from Antigua, immense flower containers from Tonalá. And then, again, two old women on their way to early mass, their white babushkas showing the delicate embroidery learned decades ago in a convent of Poland or Bohemia.

We hope to sample all these beautiful things at the Bernal Heights Society annual Street Fair and Outdoor Art Festival on August 21st and 22nd on the Precita Green (Precita Park), a tree-shaded meadow one block south of Army at Harrison Street.

Both professional and amateur

artists are cordially invited to compete for the prizes, \$200.00 -- in cash and many merchandise bonds contributed by local merchants. There will be a "Craftsman's Mall", where potters, jewelers and other craftsmen will offer their wares for sale.

Send for your entry blank with full details now!!! They can be obtained by sending a self-addressed, stamped envelope to "Art Fair Chairman", 75 Prospect Avenue, San Francisco 10, California.

## BRAVO

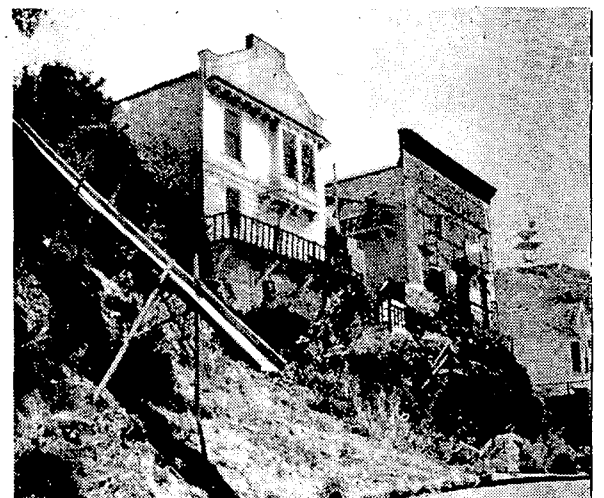

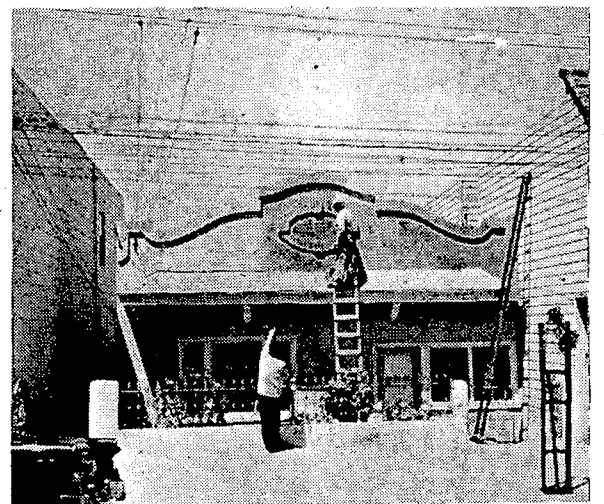

The Bernal Heights Association would like to thank all of our unselfish friends who are working so hard on our Fair. To Fair Chairman Kay Moore, for her continued efforts above and beyond the call of duty and extreme bravery under fire, goes our Special Commendation and gratitude.

### Do Your Christmas Shopping Early!

Avoid the last minute rush  
Buy inexpensive ash trays, vases, jewelry, paintings, and sculptures for yourself, your friends or Mother-in-law, for Christmas, birthdays and anniversaries too!

## Spruce-Up on Bernal

Clean up and fix up on Bernal Heights has continued to change the appearance of our neighborhood. Those of you who have made, are making, or are planning to improve are to be congratulated. Each improvement is noticed and appreciated by your neighbors and could possibly encourage them to start a project of their own. Whether your project is a major remodeling, a face lift, a paint job, pulling your weeds, or planting a tree or shrub it gives us all a lift. Keep up the good work and encourage others to join in.

# THE BATTLE OF BERNAL HEIGHTS

Earlier this year, the Arthur D. Little Co. presented City Hall with a \$1,000,000 Community Renewal Report recommending plans for the San Francisco of the future.

Two neighborhoods were recommended for "Clearance & Redevelopment", four for "Rehabilitation & Conservation", and ten areas for "Code Inspection."

The Inner Mission district, a "Rebuilding Area", was to be subjected to a mixture of Bulldozing as well as spot Rehabilitation and Conservation, while a portion of the Northern Waterfront, and "the rim of Bernal Heights" were fit only for the Bulldozer treatment.

On page 6.10 of this report, we read: "We recommend that during the next 6 years, the Redevelopment Agency initiate a survey leading to the redevelopment of the rim of Bernal Heights. This area is presently underdeveloped because of the steep terrain and inadequate street plotting. This area will afford a good location for moderate income housing, particularly in light of relatively low land costs. It will also provide a valuable relocation resource for the proposed rebuilding activity in the Inner Mission area." (The boundaries of the "rim" are never established.)

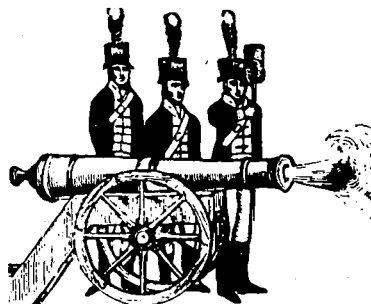

On page 4.35 they plainly state why the Redevelopers would like to take over this hill: "Clearance and Redevelopment makes possible the assembly of land as a large unit, and the acquisition of land

at costs lower than would otherwise be possible, through the use of "eminent domain" powers..."

Do you want another reason? Read p. 5.9: "Bernal Heights, Holy and Glen Park. If you live here, you have a secret denied to other less fortunate San Franciscans. You can see for miles; it's not like the City, and though the houses are old and inexpensive, they have a lot of possibilities. There are trees, and the streets wind around so much it's hard to tell your friends where you live. It's the mixture of people that makes it interesting too. Medical students in the public housing project, a Russian shoemaker, a Serbian brewing master, a Negro professor. The kids play in the empty lots."

If "Urban Renewal is concerned with making the city a better place in which to live and work," (p.2.6) will the scattered refugees of Western Addition and the non-conforming individualists of Diamond Heights believe this?

On one page they rave: "From the top of the hills, along the bustling waterfront, in the exotic and teaming quality of chinatown, the raucous Tenderloin, among the sights, sounds and smells of North Beach and Fisherman's Wharf, your experience is total. This is old San Francisco, the most concentrated, intensely stimulating and variagated piece of urban real estate in the North American continent." (p.5.6)

On another page they write: "The Community Renewal Program is a powerful instrument. . . It can be designed to maintain a city's historical qualities, or it can be programmed to develop a community with new and entirely different qualities." (p.4.1)

And what do they recommend for us? Clearance and Redevelopment! Replace our cheap houses in an old neighborhood with brand new, government-approved ticky-tacky apartments for "middle income" people!

Who will profit from this sort of beaurocratic meddling? Big builders, out-of-state bankers and Redevelopment officials! Who will suffer, we will!

On June 9th the Bernal Heights Association held a special protest meeting at the Bay View Savings Auditorium, where we voiced our objections to these proposals before a highly receptive and enthusiastic crowd of over 500 residents. Four supervisors were present: Geo. Moscone, Roger Boas, William Blake and Joseph Tiney -- and all were sympathetic

to our cause.

We respectfully ask our neighbors to remember this, now and at election time this November. Our area has 14,000 voters -- let's use our influence in a way City Hall understands.

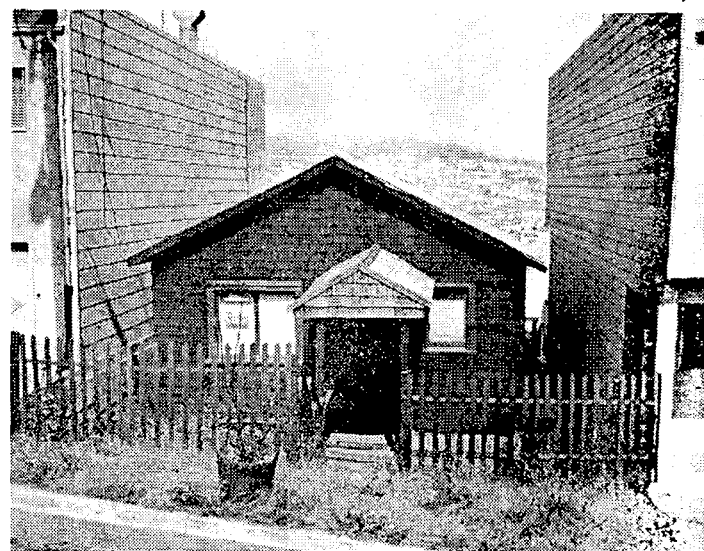

Page 4.2 of this C.R.P. report lists the goals of our City's Master Plan, which includes the following:

\* "The creation and maintenance of a community environment and a supply of housing which will attract and serve a balanced population of all income levels, ages and ethnic groups. . . and minority families who now have difficulty finding adequate housing."

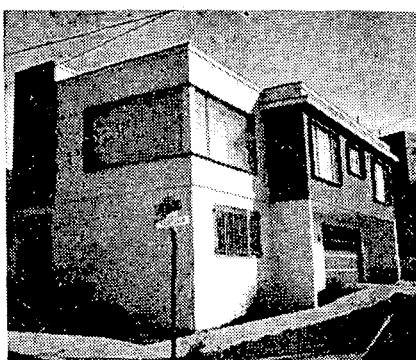

\* "The strengthening of the democratic process by involving individuals, community organizations and industry in making decisions as to the economic, social, cultural and physical future of the city."

It is for the purpose of strengthening our democratic process that a civic-minded housewife, Mrs. A. L. Southcott has organized a committee to permit voters to decide on all Urban Renewal Projects. Supervisor Ertola has already introduced a proposal for a City Charter amendment, to the Planning Committee of the Board of Supervisors, in an attempt to get

A principios del presente año, la firma de "Arthur D. Little Co." presentó planes al city hall por valor de \$1,000,000 de dolares recomendando renovaciones en la comunidad para un futuro San Francisco.

Dos vecindarios fueron recomendados para ampliación y desarrollo. Cuatro para conservación y rehabilitación y diez sujetas a la inspección del código.

La parte interior del distrito de mision "area de reconstrucción" que estaría sujeta a una combinación de destrucción y rehabilitación y conservación local, mientras que una parte correspondiente del norte del "waterfront" y los alrededores de Bernal Heights fueran condenados a la acción demolidora del "bulldozer" en la página 6.10 de dicho reporte, se lee: "recomendamos que durante los próximos seis años, la agencia de desarrollo (redevelopment agency) inicie un estudio con respecto al mejoramiento de los alrededores de "Bernal Heights".

Esta region se encuentra sub desarrollada, actualmente, debido a la elevación del terreno y el inadecuado trazo de sus calles. Esta region ofrecería la oportunidad para la construcción de casas de módica renta, especialmente por tratarse de terrenos de bajo precio. . . así tambien proporcionaría un valioso recurso de relocalización para cuando se trate de llevar a cabo las propuestas actividades restructoras del interior del area de mision los confines limitrofes del "rim" no estan establecidos.-? Quiere ud. otra razón?.-Lea la página 5.9: "Bernal Heights", Holly and Glen Park".-Los que viven en esos lugares tienen un secreto que se les niega a otros San Franciscanos menos afortunados.- Puede observarse que a lo largo de millas, que no es como en la ciudad y que, aunque las casas sean viejas y baratas, representan grandes posibilidades.-Con sus calles de arboleda y llenas de muchas vueltas, se hace difícil explicar a los amigos la dirección exacta de donde se vive.- Y es tambien interesante por la variedad combinada de la gente que allí vive.-Así por ejemplo, vive un estudiante de medicina, un zapatero Ruso, un experto cervecero Serbio y un Profesor Negro. etc., mientras que los niños juegan en los lotes vacios.-

Si la renovación urbana está interesada en que la ciudad sea un mejor lugar para vivir y trabajar (p. 2.6),?Podrian creer lo los reguiados del "Western Addition" y los inconformes del "Diamond Heights"?

En una pagina, celebran que, desde la altura de las colinas se contempla a lo largo del "Waterfront" el bullicioso y exótico china town; el desordenado tenderloin y, entre el panorama, los sonidos y los olores del Fisherman Wharf y North Beach.- Es decir, el vie jo San Francisco.-El mas estimulante y variado sector urbano en el continente Norteamericano. (p.5.6)-

En otra pagina aparece:

El programa renovador de la comunidad es un poderoso instrumento. Puede dedicarse para mantener las reliquias historicas de la ciudad o conducirse para el desarrollo de una comunidad con nuevos y completamente diferentes aspectos.-

En la pagina 4.35 simplemente dice:

Porque es que los especuladores quisieran adueñarse de esta colina?.- Sencillamente, por aue podrían obtener un conjunto de parcelas de terreno, incluida en una sola unidad a un precio tan bajo, que de otra manera no seria posible a menos que por medio del poder de "enminent domain".

Y que es lo que nos recomiendan? Ampliacion y desarrollo.-Reponer nuestras casas baratas en un viejo vecindario con los novisimos apartamentos suministrados por el gobierno para la

gente llamada de "middle income".

Quienes serian los aprovechados en esta clase de maniobras burocraticas?.-Indudablemente que los grandes constructores, firmas bancarias y financieras de otros estados y los encargados de los proyectos.-Quienes serian los perdidosos? Nosotros mismos.-

El pasado 9 de Junio, "Bernal Heights Association" tuvo una junta de protesta que se verificó en uno de los salones del "Bayview federal savings" en la cual, y ante una concurrencia considerable y consciente y la presencia de los siguientes supervisores: Moscone, Boas, Blake y Teeney, cuando se hizo oír nuestra protesta, todos se mostraron de acuerdo con nuestra justa causa.-Por tal motivo y de la manera mas respetuosa, pedimos a nuestros vecinos que tengan presente estas circunstancias a la hora de las próximas elecciones de noviembre, ya que nuestra comunidad cuenta con mas de 14.000 votos.- Esa será la ocasión para hacernos oír por medio del único lenguaje que entienden en el city hall.-

La página 4.2 de este reporte C.R.P. contiene la lista de los designios del, "Master's city plan" que incluye los siguientes: creación y mantenimiento de una comunidad que esté en condiciones de poder proporcionar viviendas que atraigan y sirvan para integrar a una población de diferentes condiciones economicas, edades y elementos minoritarios que suelen encontrar dificultades para conseguir viviendas adecuadas.-

Reforzamiento del proceso democrático para que puedan tomar parte los individuos, organizaciones de la comunidad y de la industria, para que decidan con respecto al futuro físico, económico y social de la ciudad.-

Para cumplir con estos principios del proceso democrático, una señora residente y consciente de sus derechos cívicos: Mrs. A.L. Southcott, ha organizado el funcionamiento de un comité, para pedir que se les permita a los votantes tomar parte y ser oídos en todos los proyectos de renovación urbana.-A este respecto, el supervisor Ertola, ha presentado una propuesta enmienda en el

city charter, ante el planning committee del cuerpo de supervisores y para que sea sometido a votación de toda la ciudadanía en las proximas elecciones de noviembre.-

Se recomienda a todos que se sirvan comunicarse con cada uno de los supervisores para pedirles la aprobación de dicha propuesta y que sea presentada para la votación ciudadana en las próximas elecciones de noviembre.-

Para más información y detalles, sirvanse llamar a Mrs. Southcott al telefono EV 6-6901.-

Tambien Mrs. Lee Egger tiene preparada una lista con todos los nombres, direcciones y telefonos de los supervisores y que podrá obtenerse llamando despues del trabajo al telefono AT 2-2035.- en caso que, en vez de comunicarse for telefono con los supervisores, quisiera Hacerlo por escrito, no tendrá que ser una larga carta sino que simplemente una postal, indicandoles que no queremos que nos desarrollen en lugares fuera de nuestro "Hill" tengamos presente que la batalla de "Bernal Heights" no se ha terminado y que debemos hacer muchos esfuerzos.-

Así tambien, debemos de tener presente que ningun otro peleará y luchará por nuestra causa, si no demostramos el más vivo interés.-

Walter Stanton.-

## THANK YOU

As the Bernal Heights Street Fair has grown, so has the list of those to whom we are indebted. Without the talent, effort, and influence of these people, our fair could not become a reality. We wish to thank all the people who support our activity, whether through attendance at our Fair, contributions, labor or technical assistance. A special thanks to those who've spent their spare time to collect, solicit, beg, borrow, clean, sort, cut, sew, cook, manufacture, repair, sell or whatever to further our cause.

Below is a partial list of those to whom we are indebted, which includes individuals and firms, as well as some of the things we wish to acknowledge.  
The City Fathers for varied assistance

Board of Supervisors for arrangements and street closing  
Supervisor George Moscone a special thanks for his interest and invaluable assistance in arrangements and constant encouragement  
Supervisor Roger Boas and Boas Pontiac for merchandise contribution  
Recreation and Park Commission, Recreation and Park Department, Mr. Lang and Staff for Park arrangements  
Police Department, Chief Cahill and Staff for Police supervision and assistance

Department of Public Works for technical and utility assistance  
California Assemblyman John Burton for assistance with arrangements and publicity

Dave Gallagher and the "South of Army, Mission Merchants" for assistance, encouragement, and publicity

Walter Jebe and Jebe's Camera Shop for photos, merchandise donations, publicity, photo contest arrangements and judging

Kodak and Walter Jebe for 500 large window posters, 30,000 en-

velope stuffers to advertise our Fair and photo exhibit

Mr. Lesser and Lesser's Mirror House for publicity and assistance

Guy Cherney and San Francisco Beauty College for helping our Fashion Show

Mary Burke Dress Shop for fashions

Mr. Sargent for speaker system

Mr. and Mrs. Bill Prunty for toys.

Walter Bowler of Mahoney Elec-

tric for electrical technicalities  
Pacific Gas and Electric for technical assistance

Pacific Telephone and Telegraph for technical assistance and exhibits

Wells Fargo Bank, 29th and Mission Branch and 22nd and Mission Branch for financial arrangements

Goodman Lumber Company for display materials

Entertainers for providing a varied display of fine talents

Artists and Craftsmen for bringing their works of art

And the untold numbers of Bernal Heights Association Members and friends who have aided us through hard work and patient understanding

And last but not least thanks to all of you that I may have overlooked, not known, or who wished to remain anonymous.

Kay Moore  
Fair Chairman

## WHAT Can You Buy?

What can you buy if you don't wish to travel out of the neighborhood?

Take a look at our area. Each of our boundary streets has a variety of shopping facilities. A quick run along Army reveals lumber, boats, food, drink, musical instruments. Such services as musical instruction, laundry, car service and trailer rentals.

Take the turn onto Bayshore and you will find taverns, food stores, a new Car Wash, lumber, cabinets, ornamental iron works, masonry products, hardware and any item necessary for home maintenance and repair.

Turn onto Alemany where you will find Farmer's Market, a dairy, a nursery and a stone yard.

Then on to Mission St. where you will find a surprising variety of products and services. There are doctors, lawyers, notaries, bankers and real estate agents. There are grocery stores, meat markets, bakeries, coffee shops and restaurants. There are antique shops, drugstores and dress shops. Along this street you may have your plumbing fixed, windows replaced, house heated or insured. You may buy or sell a car, join a union, have your photograph taken, or spend an evening bowling. Peek into the side streets and you can have your knives sharpened, your printing work done, or order a monument. You can also have your shoes shined, buy a cigar, get some flowers for your favorite girl, and grab a jitney or bus to wherever she may live.

If you don't wish to leave the hill, you'll find a complete shopping area on Cortland Ave., and a smaller one on Precita St. In either of these areas you'll find enough variety for most of your daily needs.

## The Views & Gracious Living of Bernal Heights....

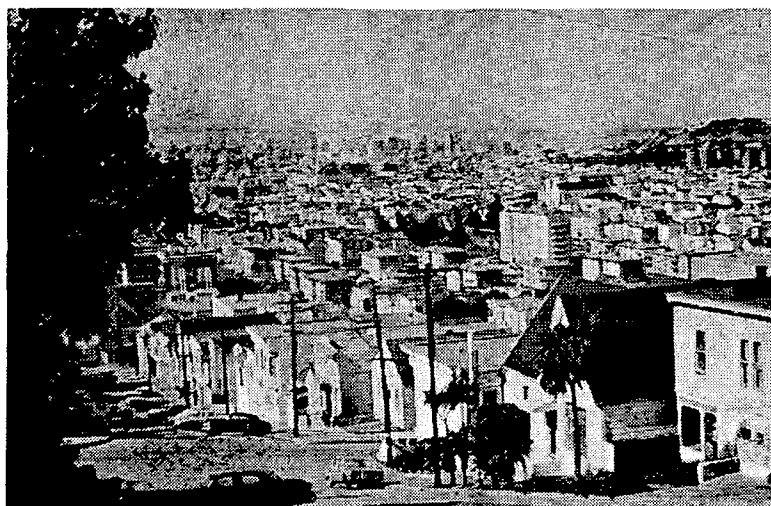

### Mayor Shelley To Visit Bernal Heights Street Fair

Official notice was given to Fair officials that Mayor John Shelley will visit the Bernal Heights Street Fair and Outdoor Art Show to be given in Precita Park the 21st and 22nd of August (Saturday and Sunday). Mayor Shelley will arrive at the Fair on Saturday afternoon. This will be one of the major highlights of the event. The public is invited to attend on both days.

### Fashion Show On The Green

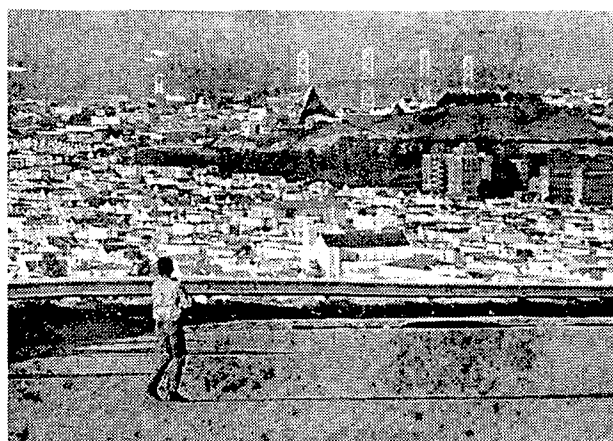

Elena Dwinell, Bernal Heights Street Fair Fashion Show coordinator, promises a fantastic fashion show for the Fair. Clothes will be donated by Mary Burke's Womens Apparel, Hair Styles worn by the models will be donated by the San Francisco Beauty College headed by Guy and Jack Cherney. The models will consist of many beautiful and fashion conscious ladies. All entertainment at the Fair is free to the public.

### SPECIAL THANKS

We wish to extend our thanks to Supervisor George Moscone for all the help and encouragement he gave us. Mr. Moscone worked on the Fair with the chairman endlessly and he encouraged the efforts of the chairman even when things seemed rather hopeless at times. He was never too busy to assist in any way he was asked. This special thanks is from the Fair Committee and the members of the Bernal Heights organization to a very special friend. Without Mr. Moscone our job would have been next to impossible.

Kay Morre,  
Fair Chairman

.... and City Hall's View of Bernal Heights!

# The Passing of Harry, The Crap Shooter

It was a typical hot summers day in Reno, with the usual amount of would be, get rich suckers from California lining the crap tables, keno chairs and blackjack games. The slot machines were doling out their jackpots of seven dollars and fifty cents for every forty or fifty dollars that were pumped into them. People were crossing back and forth from one Casino to another trying to change their luck. The busses were pulling up in front of the Horseshoe Club disgorging their load of Chinese and Filipino passengers with an occasional Caucasian. They were coming in every hour, the other Casinos such as the Nugget, Nevada Harolds, and Harrahs were likewise being invaded by bus loads of people.

Suddenly the whirring of slot machines, the clicking of dice and the slap of cards was invaded by another sound, it was the sound of a band, it was coming from Virginia street, at the sound all dealers stopped the play of what ever game they were dealing and came to attention.

Then slowly a beautiful hearse came into view. But what a hearse, it was a gorgeous black ebony drawn by six of the proudest black

horses ever seen, they seemed to almost strut as they came down the street. Behind it came all manner of horse drawn vehicles, all of them painted and polished to almost hurt your eyes. After them came hundreds of horseback riders all of them resplendent in black clothes and black trappings. Every one crowded out onto the side walks to watch this spectacle because they had never seen any thing like it in all their lives. Then someone asked, "What is it any way, just what is going on." He was answered by one of the crap dealers. "That is the passing of Harry the Crapshooter".

He died as he lived with the dice in his hand, He came out west and acquired some land, He borrowed some money to start his band, Then he took to gambling and found it paid To be a dealer, then he had it made, He started a club with a couple of tables, And as he dealt he told them fables, Of great things to come to little known Reno, "Some day", he said, "we'll

be famous for keno, We'll be the biggest little city in all the world, And many will come with their wallets unfurled," People laughed to hear him talk this way, But he kept talking until the day He very quietly passed away. Now you can see how right he was,

# HOWARD McKENZIE WILL FIGHT TO SAVE THE HILL

*Howard McKenzie, president of the Bernal Heights Association, believes that it is the duty of every resident on the hill to protect his neighborhood and to fight for it's improvement.*

*Mr. McKenzie envisions the park pictured for the top of Bernal Hill. It would provide a place for the following activities: a drama group, arts and crafts program, group meetings of senior citizens and neighborhood improvement club.*

*The building, designed by Alan Gur Arye, provides a play area for toddlers that is apart from a sunning area for senior citizens. It also has an open air theater and arts and crafts rooms.*

*This building could become a focal point of cultural activities in our neighborhood.*

## Battle

(Continued from page 3)

it on the ballot this November. Everyone is urged to contact all Supervisors to ask them to approve this proposal so that the entire city can vote on it, by having it placed on the ballot this Fall. For further information, call Mrs. Southcott: EV 6-6901.

A resident of this hill, Miss Lee Egger, compiled a list of business addresses and phones of all our Supervisors. For this information, call her after work: AT 2-2035. You don't have to write long letters; a simple postcard will do. But let them know you don't want to be redeveloped off your hill.

## The Crap Shooter

(Continued from page 9)

Why he's being buried with all this fuss,

He loved horses as you can see

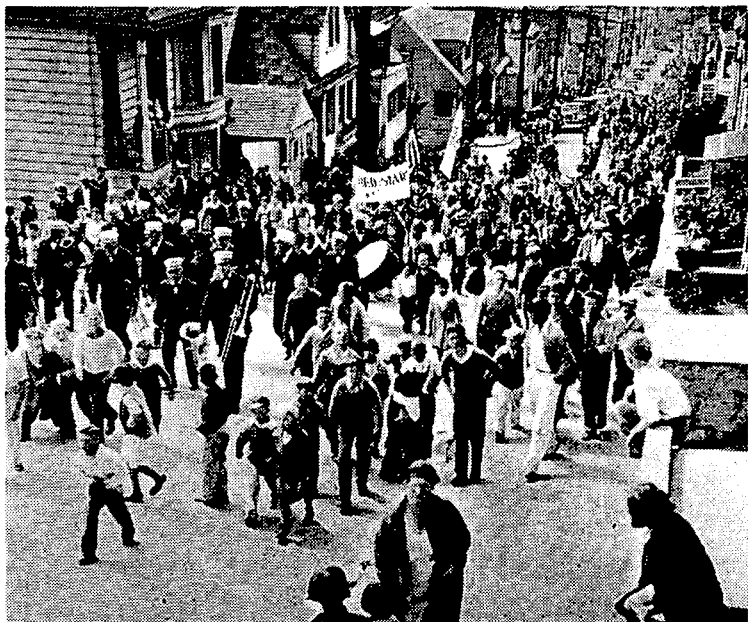

He always said "no auto hearse for me."

The people are quiet as he passes by,  
Many stood with a tear in their eye,

Harry had gone to a just reward,  
But a few of them were a little bored.

They wanted to get back to their play,  
After all Harry had had his day.

-E. Mickey Marte

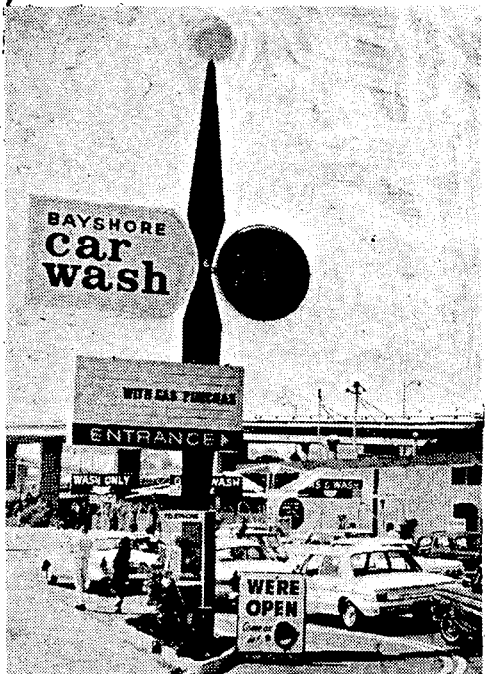

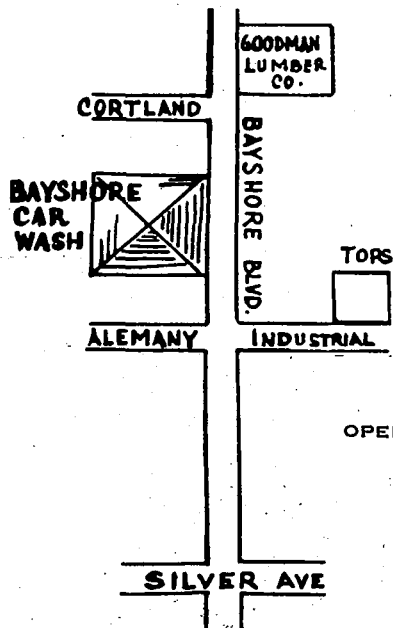

## BAYSHORE CAR WASH

550 BAYSHORE BLVD. at ALEMANY

Vince, Ed, and Paul Gregoire, invite you to see . . .

## COMING ATTRACTIONS

Architects Bowler & Chan are busy designing custom houses on Bernal Heights. Potter-sculptor Win Ng's studio residence on top of the North-East crest of Bernal Heights is already half finished. Two other modernistic homes are about to be constructed, one on Bonview Street and one on the crest of Coso Street, on a triangular view lot.
